

Biography

Maximilian Zettl Electrify America

Maximilian Zettl is Electrify America's acting Director of Technology, overseeing all aspects of engineering, hardware/software development, as well as quality, testing, and validation.

Since joining Electrify America in December 2019, he has been responsible for Vendor Quality and Validation of Charger HW/FW and Vehicle Interoperability.

Prior to joining Electrify America, he was Senior Test and Development Engineer at BMW of North America, the culmination of 12 years of electronics and systems engineering for EV(BEV/PHEV/FCEV) vehicles within the BMW Group.
