

Biography

Tim Rose

REMA EV Connections GmbH

Tim Rose is the Managing Director of REMA EV Connections GmbH, responsible for REMA's strategic market development, technology and product development.

Tim joined REMA in 2008 to launch REMA's expansion into North America. With over 30 years of engineering experience in the off-highway EV industry, Tim leads REMA's EV charge coupler developments and serves on standards and technical committees including IEC, SAE, UL and ANSI.

Tim holds a degree in Mechanical Engineering from the University of Kentucky and is a licensed Professional Engineer.
