

Biography

Magnus Höglund

Scania Group

He graduated Chalmers tekniska högskola as Master of Mechanical Engineering and RWTH Aachen University. He has been associated with Scania since 1999, first at Scania Infotronics AB and then Scania Group.

He always focused on finding solutions to challenge the status quo, and drive growth through business development.

He has a comprehensive experience within product management, product development, business development, strategy and solution sales.

Magnus Höglund
