

Biography

Rafał Bajczuk FFPE

Rafał Bajczuk is a Senior Policy Analyst at the Polish Electric Vehicles Promotion Foundation (FPPE) and he represents the Brussels based NGO Transport & Environment (T&E). In his role Mr Bajczuk is advocating for promoting zero emission road transport. Recently he has been involved in supporting the adoption of the Fit for 55 package including Alternative Fuel Infrastructure Regulation (AFIR) and the CO2 emission standards for cars and vans. Prior to joining FPPE and T&E Mr Bajczuk worked for a Polish governmental think-tank OSW as an analyst for Germany's energy and climate policy.

He completed a master degree in International Relations at the University of Warsaw and a postgraduate diploma in the Functioning of EU Energy Market at the Warsaw School of Economics. Besides his native Polish, Rafał also speaks English, German and Russian. Although in professional life he supports electric vehicles he is a passionate cyclist.
