MINING

An alliance between
CharIN and the global
mining industry for
applications beyond
MegaWatt Charging
System (MCS)

The Challenge

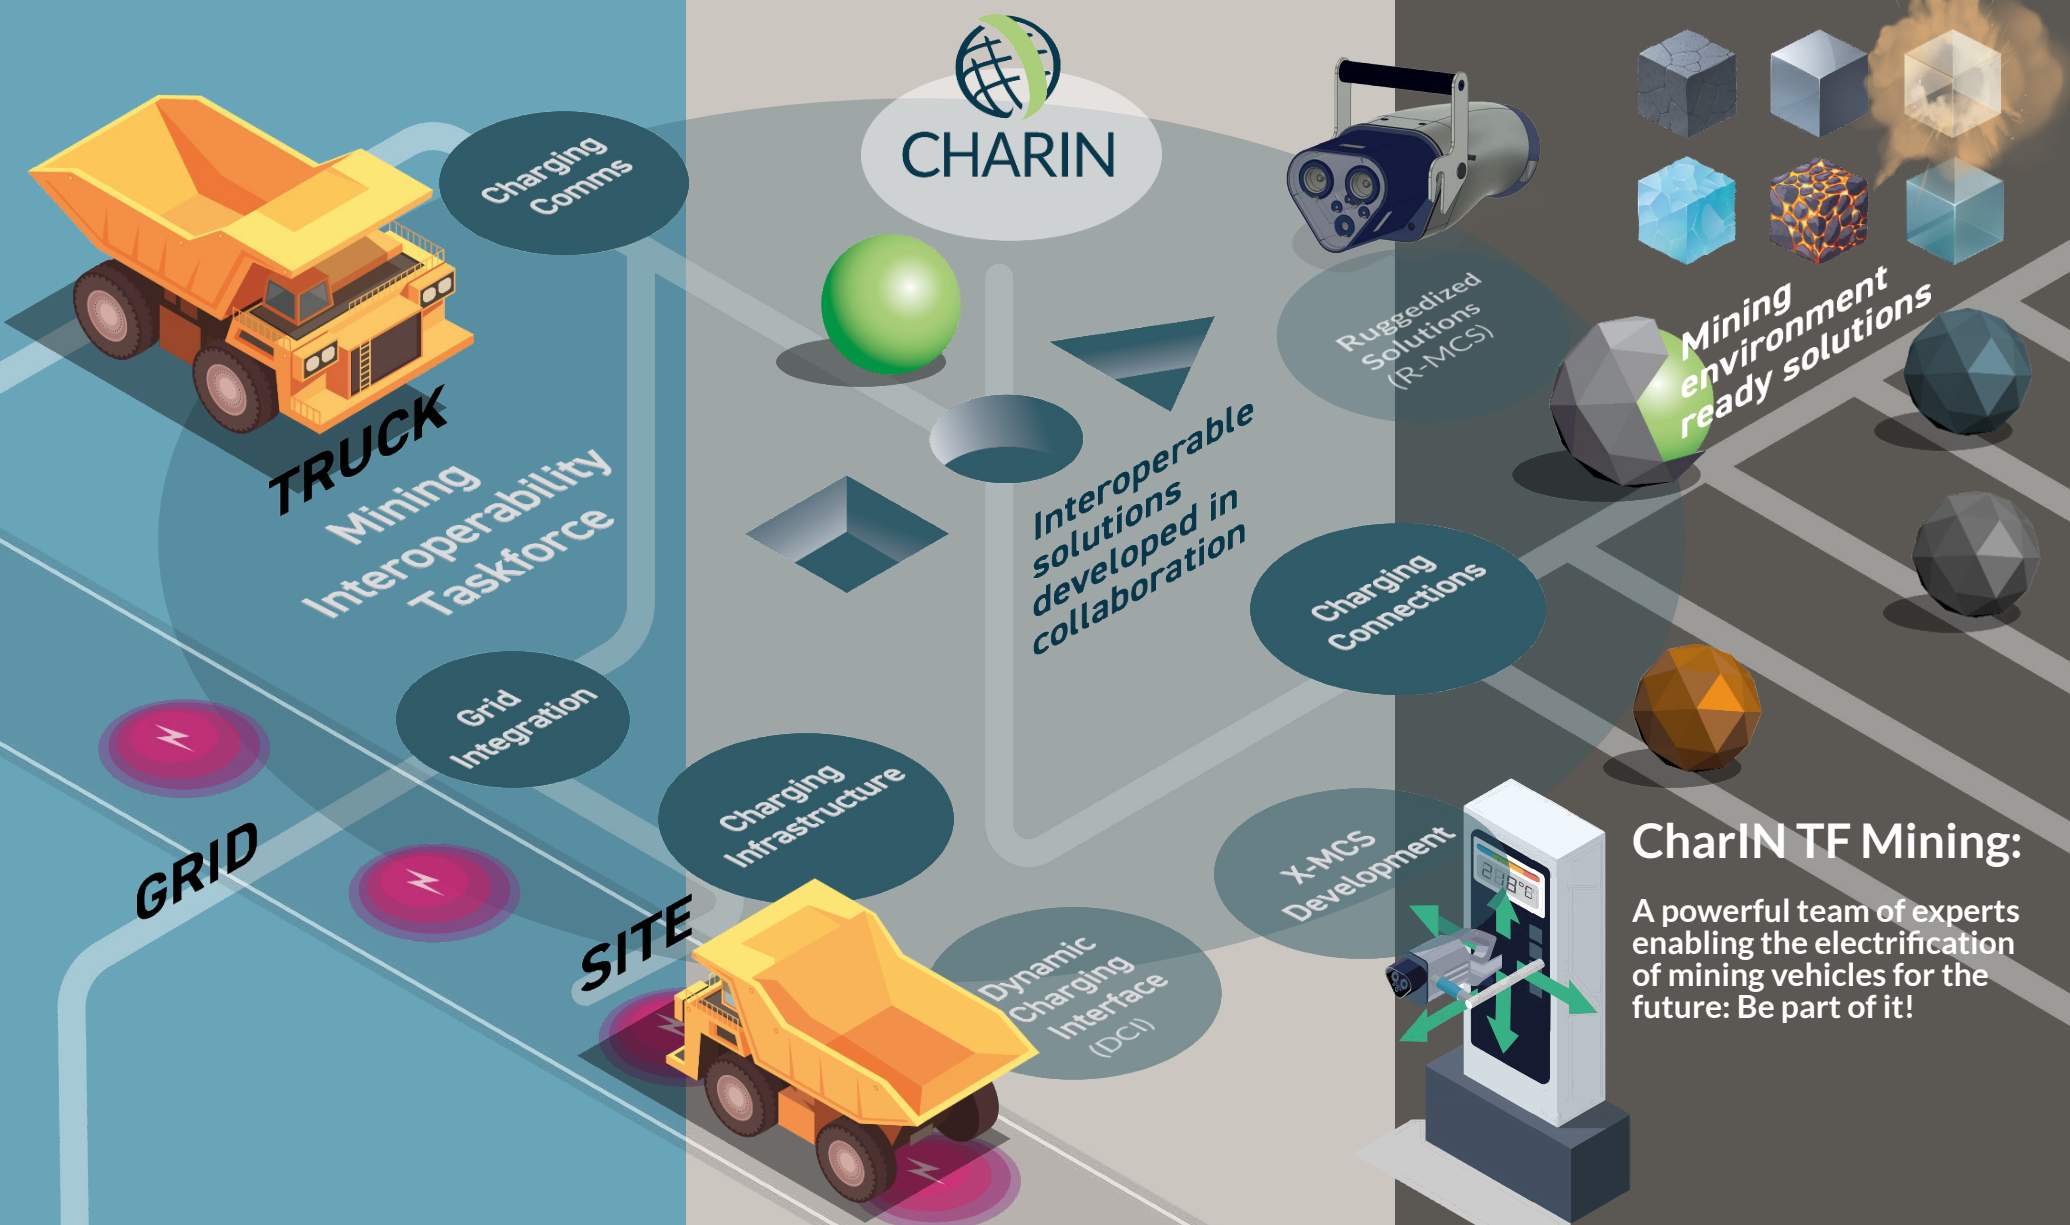

Safely deliver MegaWatts of electricity to each haul cycle.

Interoperability

Potential to have an interoperable charging solution for every electric vehicle on this planet.

Ruggedized Solutions

Making MegaWatt charging work for extreme environments.

Interoperable solutions developed in collaboration

TRUCK
Mining Interoperability Taskforce

Charging Comms

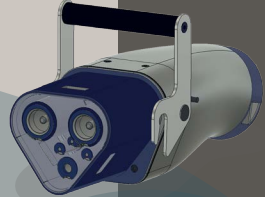

Grid Integration

Charging Infrastructure

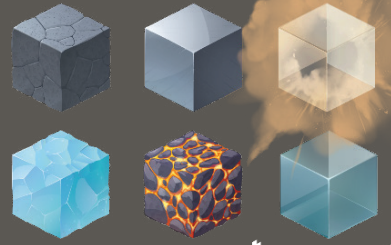

Dynamic Charging Interface (DCI)

X-MCS Development

Charging Connections

Ruggedized Solutions (R-MCS)

Mining environment ready solutions

CharIN TF Mining:

A powerful team of experts enabling the electrification of mining vehicles for the future: Be part of it!
